

## 2011 ASCCP Award Recipients

### Distinguished Scientific Achievement Award

#### **Mark Stoler, MD**

for nearly 30 years as a national leader in cervical pathology and cervical cancer prevention, including assisting in the development of the 2001 Bethesda System and the 2002 and 2006 Consensus Guidelines and for being a major contributor to the Practice Improvement in Cervical Screening and Management (PICSM) committee. Dr. Stoler has more than 100 scientific publications in gynecologic pathology, HPV, and cervical cancer prevention. In the mid-1980's he developed the in situ hybridization methods that helped verify the role of HPV in cervical pathology. Dr. Stoler has also been involved in most of the critical clinical trials on validating new technologies for cervical cancer prevention.

### Meritorious Scientific/Service Awards

#### **Ramon M. Cestero, MD**

for assistance in translating the 2006 Consensus Guidelines Algorithms into Spanish and for serving as both co-chair and faculty for the ASCCP International Education and Humanitarian Outreach Committee.

#### **Alan G. Waxman, MD, MPH**

for serving as both co-chair and faculty for the ASCCP International Education and Humanitarian Outreach Committee, faculty for ASCCP postgraduate courses, and oversight of the development of the new ASCCP online examination for both residents and the mentorship program.

### Award of Merit

#### **Francisco A. Garcia, MD, MPH**

for assistance in translating the 2006 Consensus Guidelines Algorithms into Spanish.

#### **Luis Alfonso Padilla Paz, MD**

for assistance in translating the 2006 Consensus Guidelines Algorithms into Spanish.
