

DISCLOSURE OF INTEREST AND CONTRIBUTED FUNDS

As an accredited provider of CME credit, ASCCP is required to comply with the ACCME's Standards of Commercial Support and has implemented a process to manage potential conflicts of interest. We have a process to ensure that anyone who is in a position to affect the content of the educational activity (e.g., faculty, planners, etc.) has disclosed to us all relevant financial relationships with any commercial interest. ASCCP then discloses to learners any relevant financial relationship(s) to include the following information: 1) the name of the individual; 2) the name of the commercial interest; and, 3) the nature of the relationship the person has with each commercial interest. Slides are reviewed for possible bias prior to the course by the course director, and concerns are resolved prior to the presentation. Any discussion of off-label use of products is noted. Disclosures of these commitments and/or relationships will be published in course materials and provided from the podium so those participants in the activity may formulate their own judgments regarding the presentation(s). Course directors and co-directors also monitor presentations for bias and intervene as appropriate to provide balance. Under ASCCP policy, anyone declining either to disclose or amend material to eliminate potential bias identified by the Program Directors will be replaced.
