

HRA HIGH RESOLUTION ANOSCOPY COURSE

(Optional CME course, registration required)

This course has been designated as either an optional enhancement to the ASCCP Comprehensive Colposcopy course or as a Separate CME activity. For those participants who wish to take the HRA course only, please submit documentation of prior completion of an ACCME-approved comprehensive colposcopy course (minimum 14 hours) or its equivalent.

WHO SHOULD TAKE THIS COURSE?

This course is designed for licensed healthcare providers who have an interest in offering screening and treatment of anal disease in their patient populations. Participants must be concurrently enrolled in the *Comprehensive Colposcopy* course or submit documentation of completion for a previous ACCME-approved colposcopy course or equivalent to sit for this course.

OBJECTIVES

Upon completion of this course, participants will be able to:

- Understand the epidemiology of anal HPV infection, anal dysplasia, and anal cancer;
- Understand diagnostic procedures for anal dysplasia and anal cancer; and,
- Understand treatment options of anal dysplasia
