

ASCCP2018 ANNUAL MEETING PROGRAM

April 18–21, 2018 ✨ Las Vegas, Nevada

*Improving Lives Through the Prevention & Treatment
of Anogenital & HPV-Related Diseases*

Fresh brand, fresh mission.

The ASCCP Board of Directors recognized the need to revise our mission statement and brand to one that better focuses on the broad community that ASCCP supports.

The ASCCP will no longer be referenced as the American Society for Colposcopy and Cervical Pathology – but rather now simply as the ASCCP, with a mission to improve lives through the prevention and treatment of anogenital and HPV-related diseases.

*Improving Lives Through the Prevention & Treatment
of Anogenital & HPV-Related Diseases*

» If you're not a member – **SIGN UP TODAY!**

Membership is available for health professionals interested in anogenital and HPV-related diseases. For more information, visit www.asccp.org/member-benefits.

LUNCH SYMPOSIUM

The Latest Advances in Cervical Cancer Screening and Management: Performance and Genotyping Results from the BD Onclarity HPV Assay US PMA Clinical Study

Thursday, April 19

Pavilion Ballroom

12:00 PM – 1:30 PM

What are the latest advances in HPV and cervical cancer screening that could improve outcomes for your patients? Find out when you join noted experts Mark H. Stoler, MD, and Thomas C. Wright, MD, for lunch at ASCCP 2018. They will review the data and results from the BD Onclarity pivotal clinical trial—a prospective, multi-center clinical trial that included 33,8580 US women. The presentations will cover performance by intended use, including ASCUS triage, co-testing, primary screening, and results in vaccinated versus unvaccinated cohorts. Discover how this new HPV diagnostic test will provide clinicians with another choice in detecting and genotyping high-risk HPV virus infection.
